

NAUVAL ZULFIKAR

Applied ML / NLP Engineer · Responsible AI candidate Bandung, Indonesia (relocatable to Darmstadt, TBD) zulfikar.nauval1998@gmail.com · +44 7300 469048 · +62 821 2567 2264 [LinkedIn](#) · [GitHub](#) · [Portfolio](#) **Visa status:** UK Graduate Visa (active). Indonesian passport. Eligible for EU Researcher (Hosting Agreement) visa for European PhDs.

PROFILE

MSc Business Analytics graduate with a First Class degree from Aston University, specialising in NLP and ML applications for supply chain optimisation. My dissertation, supervised by Dr. Ammar Al-Bazi, focused on blockchain-integrated LLM analysis for supply-chain customer reviews, laying the groundwork for advanced research in multi-document reasoning and AI for scientific evidence synthesis.

EDUCATION

Aston University, Birmingham, UK (*MSc Business Analytics, 1:1 First Class · EQF Level 7 · Sep 2023 – Sep 2024*)

- **1st Winner, Aston Enterprise Scholarship 2023** (full-tuition competitive award)
- **Aston Pitching Contest 2024** runner-up (AI-powered supply chain proposal)
- **Distinctions:** Decision Models, Effective Management Consultancy, Software Analytics
- **Dissertation:** *Enhancing Supply Chain Information Sharing Systems Through Blockchain: Integrated Customer Reviews LLM Analysis: A Smart Contract Approach* (supervised by **Dr. Ammar Al-Bazi**)

Ritsumeikan Asia Pacific University, Beppu, Japan (*BBA Marketing · EQF Level 6 · Oct 2016 – Sep 2019*)

- APU 50% Tuition Reduction Scholarship + JASSO Scholarship
- Distinctions: Business Data Analysis, Consumer Behaviour, Marketing Research

RESEARCH-RELEVANT PROJECTS

LLM-Generated Adaptive Shipper Decision Rules (2026)

- Developed an end-to-end RAG system using gpt-4o-mini, enhancing decision rules from traveller profiles with a behavioural literature knowledge base.
- github.com/nauvalZulfikar/LLM-Shipper-Profiles

CV-JD Suitability Checker (2024)

- Implemented a DeBERTa-v3 based semantic matching system, outperforming lexical ATS baselines.
- Full ML pipeline: training, evaluation, serving.

MSc Dissertation Pipeline (2024)

- Fine-tuned DeBERTa-v3 on multi-tier supplier review data for multi-aspect classification, integrated into a decision system.
- Graded 1:1.

Crowd-Shipping ABM Behavioural Sweep (2026)

- Conducted a 450-run parameter sweep to evaluate reward and supply-density effects on acceptance rates.
- github.com/nauvalZulfikar/Crowd-Shipping-ABM-

INDUSTRY EXPERIENCE

Public Works & Spatial Planning Department (PUTR), Bandung (*Data Scientist & Project Manager · Sep 2022 – Present*)

- Automated ETL pipelines and dashboards, achieving 45% faster project delivery and 20% data-efficiency gain.

Syncwell, Birmingham, UK (*Marketing Data Scientist · Jul – Sep 2024*)

- Implemented predictive ML and personalisation strategies, increasing CTR by 40% and follower growth by 22%.

PCOS Challenge, Birmingham, UK (*Strategic Data Scientist Specialist · Jun – Aug 2024*)

- Developed customer attribution models, reducing manual workload by 80%.

Bank Muamalat Indonesia, Jakarta (*Lead Data Scientist · Nov 2019 – Aug 2022*)

- Developed NLP models for credit analysis, achieving a 5.3% investment return.

PUBLICATIONS

Zulfikar, N. (2025) *Performance Analysis in Sport Footwear Sales Prediction Using Machine Learning*. Comparative evaluation of multiple ML regressors for retail sales forecasting accuracy.

TECHNICAL SKILLS

ML/NLP: PyTorch, HuggingFace Transformers, DeBERTa-v3 fine-tuning, gpt-4o-mini API, RAG, sentence-transformers, classification, regression, time-series forecasting.

Languages/Infrastructure: Python, SQL, R, PySpark, NumPy, Scipy, pandas, scikit-learn, FastAPI, Streamlit.

Mathematical/Formal: MILP (Pyomo, scipy.optimize.milp), Agent-Based Modelling (mesa), Discrete-Event Simulation (simpy), Digital Twin architecture, Bayesian methods.

Governance: Model validation, audit-grade documentation, model staleness monitoring, A/B testing, AWS, Docker, Git, ETL/orchestration.

LANGUAGES

Indonesian (*Native*) · **English** (*Fluent, IELTS 7.0 overall*) · **Japanese** (*Intermediate*)

Subject: Application for Postdoctoral Researcher for the ERC Advanced Grant InterText — Ref [TODO: verify with user] — Nauval Zulfikar

Dear Prof. Dr. Gurevych,

I am writing to express my interest in the position of Postdoctoral Researcher for the ERC Advanced Grant InterText at the UKP Lab, Technische Universität Darmstadt. I am available to start on 1 September 2026, aligning with your department's timeline.

Your work on [TODO: verify supervisor paper title via Google Scholar] has been particularly inspiring to me, especially in how it addresses the challenges of automated fact-checking and misinformation detection. This aligns closely with my research interests and expertise in NLP and AI-driven solutions.

During my MSc in Business Analytics at Aston University, I completed a dissertation titled "Enhancing Supply Chain Information Sharing Systems Through Blockchain: Integrated Customer Reviews LLM Analysis: A Smart Contract Approach." This project involved fine-tuning DeBERTa-v3 transformers, which directly relates to your research themes of multi-document reasoning and long-context LLMs.

Additionally, my recent project, "LLM-Generated Adaptive Shipper Decision Rules," utilized a retrieval-augmented generation system with OpenAI's gpt-4o-mini, showcasing my ability to develop reproducible and ablatable systems. This experience is particularly relevant to the themes of AI for Science and scientific evidence synthesis that your lab focuses on.

I acknowledge that my academic background in Business Analytics might differ from a traditional Computer Science path. However, I have consistently applied machine learning and NLP techniques across various domains, including my role as a Data Scientist & Project Manager at the Public Works & Spatial Planning Department in Indonesia, where I led projects that improved data efficiency and project delivery times.

I have attached my CV, transcripts, and reference letters for your review. I am eager to contribute to the InterText project and look forward to the possibility of discussing my application further.

Sincerely,

Nauval Zulfikar

Diploma Supplement

This Diploma Supplement follows the model developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient recognition of qualifications (diplomas, degrees, certificates etc). It is designed to provide a description of the nature, level, context and status of the studies that were pursued and successfully completed by the individual named on the original qualifications to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition.

1. INFORMATION IDENTIFYING THE HOLDER OF THE QUALIFICATION

1.1 Family name(s):

ZULFIKAR

1.2 Given name(s):

NAUVAL

1.3 Date of birth (day/month/year):

9th January 1998

1.4 Student identification number:

Student Number: 230287998

2. INFORMATION IDENTIFYING THE QUALIFICATION

2.1 Name of qualification:

Master of Science in Business Analytics

2.2 Main field(s) of study for the qualification:

Business Analytics

2.3 Name and status of awarding institution:

Aston University

2.4 Name and status of institution(s) delivering the programme:

Aston University

2.5 Language(s) of instruction/examination:

English

3. INFORMATION ON THE LEVEL OF THE QUALIFICATION

3.1 Level of qualification (please refer to diagram overleaf):

Level 7 - 2nd cycle

3.2 Standard duration of programme:

1 year

3.3 Access requirement(s):

For admission to Postgraduate Certificate, Postgraduate Diploma or MSc/MA/MBA programmes students should have completed a Bachelors degree. In some cases equivalent professional qualifications or experience may be accepted.

5. INFORMATION ON THE FUNCTION OF THE QUALIFICATION

5.1 Access to further study:

Holders of a Master's qualification are generally eligible for admission to appropriate MPhil or PhD research degrees.

5.2 Professional status:

Not applicable.

6. ADDITIONAL INFORMATION

6.1 Additional information:

Not applicable.

6.2 Further information sources:

Further information about all Aston University's programmes is available on the University web site: <http://www.aston.ac.uk/>

7. CERTIFICATION OF THE SUPPLEMENT

7.1 Date of Issue: 3 February 2025

7.2 Signature and Capacity:

Vice-Chancellor

4. INFORMATION ON THE CONTENTS AND RESULTS GAINED

4.1 Mode of study:

Full Time

4.2 Qualification requirements:

180 credits with at least 150 credits at Level 7 (ECTS equivalents 90, 75)

4.3 Programme details:

Modules:		Level	Mark(%)	Credit
BDM200	MSc Business Analytics Research Project	7	76	45
BNM817	Effective Management Consultancy	7	82	15
BNM832	Big Data for Decision Making	7	67	15
BNM854	Descriptive Analytics	7	65	15
BNM860	Decision Models	7	74	15
BNM861	Data Mining and Web Analytics	7	69	15
BNM863	Business Analytics in Practice	7	60	15
BNM864	Software Analytics	7	71	15
BNM867	Research Project Design Practice and Ethics	7	72	15
BPG130	The Aston Global Advantage	7	60	15

Description of Higher Education in England, Wales and Northern Ireland

In England, Wales and Northern Ireland¹, higher education institutions are independent, self-governing bodies active in teaching, research and scholarship. They are established by Royal Charter or legislation and most are part-funded by government.

Higher education (HE) is provided by many different types of institution. In addition to universities and university colleges, whose charters and statutes are made through the Privy Council which advises the Queen on the granting of Royal Charters and incorporation of universities, there are a number of publicly-designated and autonomous institutions within the higher education sector. Publicly funded higher education provision is available in some colleges of further education by the authority of another duly empowered institution. Teaching to prepare students for the award of higher education qualifications can be conducted in any higher education institution and in some further education colleges.

Degree awarding powers and the title 'university'

All universities and many higher education colleges have the legal power to develop their own courses and award their own degrees, as well as determine the conditions on which they are awarded. Some HE colleges and specialist institutions without these powers offer programmes, with varying extents of devolved authority, leading to the degrees of an institution which does have them. All universities in existence before 2005 have the power to award degrees on the basis of completion of taught courses and the power to award research degrees. From 2005, institutions in England and Wales that award only taught degrees ('first' and 'second cycle') and which meet certain numerical criteria, may also be permitted to use the title 'university'. Higher education institutions that award only taught degrees but which do not meet the numerical criteria may apply to use the title 'university college', although not all choose to do so. All of these institutions are subject to the same regulatory quality assurance and funding requirements as universities; and all institutions decide for themselves which students to admit and which staff to appoint. Degrees and other higher education

qualifications are legally owned by the awarding institution, not by the state. The names of institutions with their own degree awarding powers ('Recognised Bodies') are available for download at: <http://www.dcsf.gov.uk/recognisedukdegrees/index.cfm?fuseaction=institutes.list&InstituteCategoryID=1>

Higher education institutions, further education colleges and other organisations able to offer courses leading to a degree of a Recognised Body are listed by the English, Welsh and Northern Irish authorities, and are known as 'Listed Bodies'. View the list at: <http://www.dcsf.gov.uk/recognisedukdegrees/index.cfm?fuseaction=institutes.list&InstituteCategoryID=2>

Qualifications

The types of qualifications awarded by higher education institutions at sub-degree and undergraduate (first cycle) and postgraduate level (second and third cycles) are described in the Framework for Higher Education Qualifications in England, Wales and Northern Ireland (FHEQ). This also includes qualification descriptors that were developed with the HE sector by the Quality Assurance Agency for Higher Education (QAA - established in 1997 as an independent UK-wide body to monitor the standard of higher education provision - www.qaa.ac.uk). The FHEQ was self-certified as compatible with the Framework for Qualifications of the European Higher Education Area, the qualifications framework adopted as part of the Bologna Process, in February 2009. Foundation degrees, designed to create intermediate awards strongly oriented towards specific employment opportunities, were introduced in 2001. In terms of the European Higher Education Area they are 'short cycle' qualifications within the first cycle. The FHEQ is one component of the Credit and Qualifications Framework for Wales (CQFW). The Qualifications and Curriculum Authority (QCA), the Department for Children, Education, Lifelong Learning and Skills, Wales (DCELLS) and the Council for Curriculum Examination and Assessment, Northern Ireland (CCEA) have established the Qualifications and Credit Framework (to replace, in time, the National Qualifications Framework (NQF)). These authorities regulate a number of professional, statutory and other awarding bodies which control VET and general qualifications at all levels. The QCF is also incorporated into the CQFW. There is a close association between the levels of the FHEQ and the NQF (as shown below), and other frameworks of the UK and Ireland (see 'Qualifications can cross boundaries' <http://www.qaa.ac.uk/standardsandquality/otherrefpoints/Qualsboundaries09.pdf>)

Quality Assurance

Academic standards are established and maintained by higher education institutions themselves using an extensive and sophisticated range of shared quality assurance approaches and structures. Standards and quality in institutions are underpinned by the universal use of external examiners, a standard set of indicators and other reports, by the activities of the QAA, and in professional areas by relevant professional, statutory and regulatory bodies. This ensures that institutions meet national expectations described in the FHEQ: subject benchmark statements, the Code of Practice and programme specifications. QAA conducts peer-review based audits and reviews of higher education institutions with the opportunity for subject-based review as the need arises. The accuracy and adequacy of quality-related information published by the higher education institutions is also reviewed. QAA also reviews publicly funded higher education provision in further education colleges.

Credit Systems

Most higher education institutions in England and Northern Ireland belong to one of several credit consortia and some operate local credit accumulation and transfer systems for students moving between programmes and/or institutions. A framework of national guidelines, the Higher Education Credit Framework for England, was launched in 2008. Credit is also an integral part of the CQFW and the QCF. It may be possible for credit awarded in one framework to be recognised by education providers whose qualifications sit within a different framework. HE credit systems in use in England, Wales and Northern Ireland are compatible with the European Credit Transfer System (ECTS) for accumulation and transfers within the European Higher Education Area, and are used to recognise learning gained by students in institutions elsewhere in Europe.

Admission

The most common qualification for entry to higher education is the General Certificate of Education at 'Advanced' (A) level. Other appropriate NQF level 3 qualifications and the kite-marked Access to HE Diploma may also provide entry to HE. Level 3 qualifications in the CQFW, including the Welsh Baccalaureate, also provide entry, as do Scottish Highers, Advanced Highers or qualifications at the same levels of the Scottish Credit and Qualifications Framework. Part-time and mature students may enter HE with these qualifications or alternatives with evidenced equivalent prior formal and/or experiential learning. Institutions will admit students whom they believe to have the potential to complete their programmes successfully.

Diagram of higher education qualification levels in England, Wales and Northern Ireland

Framework for Higher Education Qualifications (FHEQ) ⁵		FQ-EHEA cycle	Credit		Progression for selection of students (FHEQ levels)	National Qualifications Framework for England, Wales and Northern Ireland ⁶	
Typical Qualifications	Level		Typical UK	Typical ECTS credit ranges ³		Typical Qualifications	Level
Doctoral Degrees (eg PhD, DPhil, EdD)	8	3 rd cycle	Typically not credit rated ⁴	Typically not credit rated		Vocational Qualifications Level 8	8
Masters Degrees Integrated Masters Degrees Postgraduate Diplomas Postgraduate Certificate of Education Postgraduate Certificates	7	2 nd cycle	180	60-120 ²		Fellowships NVQ Level 5 Vocational Qualifications Level 7	7
Bachelors Degrees with Honours Bachelors Degrees Professional Graduate Certificate in Education Graduate Diplomas Graduate Certificates	6	1 st cycle	360	180-240		Vocational Qualifications Level 6	6
Foundation Degrees Diplomas of Higher Education Higher National Diplomas	5	Short cycle	240	120		NVQ Level 4 Higher National Diplomas (HND) Higher National Certificates (HNC) Vocational Qualifications Level 5	5
Higher National Certificates Certificates of Higher Education	4		120			Vocational Qualifications Level 4	4
Entry to HE via equivalent experiential or prior learning						National Vocational Qualification (NVQ) Level 3 Vocational Qualifications Level 3 GCE AS and A Level Advanced Diploma Welsh Baccalaureate Advanced ⁴	3

¹PhD and DPhil qualifications are typically not credit-rated. Newer doctoral degrees, such as the Professional Doctorate, are sometimes credit rated, typically 540 UK credits.

²A range of 90-120 ECTS is typical of most awards

³1 ECTS credit is typically worth 2 UK credits

⁴The Welsh Baccalaureate Qualification is part of the Credit and Qualifications Framework for Wales (CQFW)

⁵For students with the necessary prerequisites, entry to each FHEQ level is possible from the next lower level in the NQF or Framework for Higher Education Qualifications.

⁶These levels will also apply to the Qualifications and Credit Framework (QCF). The QCF will eventually replace the National Qualifications Framework (NQF)

PRIVATE AND CONFIDENTIAL - FOR THE ATTENTION OF ADDRESSEE ONLY

Student Name: Nauval Zulfikar

Programme Title: MSc Business Analytics

Duration of study:

Mode of study: Full Time

Start of study period: September 2023

Intended end of study period: September 2024

Student Status: Current Student

Project Title: ENHANCING SUPPLY CHAIN INFORMATION SHARING SYSTEMS THROUGH
BLOCKCHAIN- INTEGRATED CUSTOMER REVIEWS LLM ANALYSIS A SMART CONTRACT
APPROACH

Dear Members of the Admissions Committee,

I am writing to support Mr. Nauval Zulfikar's application for the PhD program at the Politecnico di Milano. As his ongoing Master of Business Analytics dissertation supervisor at Aston University, I have been impressed by his exceptional skills in Python programming, Machine Learning, Artificial Intelligence, and blockchain development, particularly its application in the supply chain sector. His progressed work has consistently showcased his innovative thinking, technical proficiency, and ability to apply complex concepts effectively.

Additionally, Mr. Zulfikar has developed a compelling dissertation proposal titled "Enhancing Supply Chain Information Sharing Systems through Blockchain-Integrated Customer Reviews LLM Analysis: A Smart Contract Approach." This ongoing work, which integrates large language models (LLM) to process online product reviews within a blockchain environment, highlights his ability to combine advanced technologies for practical solutions. Promising outcomes are expected to be delivered as he continues to work on this project.

Mr. Zulfikar's analytical skills, dedication, and passion for his field make him an ideal candidate for your PhD program. He has the potential to contribute significantly to your research community, and I wholeheartedly endorse his application.

Please feel free to contact me for any further information.

Yours sincerely,
Ammar Al-Bazi

Compared to the rest of Nauval Zulfikar's cohort, he can be scored as:

	(5) Excellent	(4) Very Good	(3) Good	(2) Satisfactory	(1) Poor
Academic Ability	x				
Motivation	x				
Relationship with others, eg. teamworking	x				
Overall Professionalism	x				

I have known Nauval since September 2023, when he enrolled into the MSc programme in Business Analytics at Aston University. Nauval attended two modules that I taught: one on Machine Learning for Business Analytics, and one on Research Methods. He is expected to graduate in September 2024.

Nauval has received very high marks in the taught component of the programme, and he has a very good chance to graduate with a distinction.

At my modules, Nauval was consistently among the top of the class in terms of academic performance. He has shown a strong motivation to acquire new skills and knowledge, had a good attendance at seminars, was diligent in completing all assignments, and was never shy to contribute to in-class discussions. He has also very active in various extracurricular activities at the university. He certainly has the necessary aptitude for further post-graduate education and independent research.

Overall, Nauval is an ambitious and motivated student, and has a pleasant personality.

I wholeheartedly support Nauval's intention to enrol into a PhD programme relevant to Data Science and Business Analytics.

Should you require any additional information, please do not hesitate to contact me.

Best regards,

Viktor Pekar
