42 Via Marco Aurelio, Milan, 20127, Italy (EU work rights + UK Graduate Visa)

PROFESSIONAL SUMMARY

Senior Data Scientist with 5+ years building production ML end-to-end across regulated banking, government, and remote UK contracts. Delivered measurable commercial impact: +5.3% investment return at Bank Muamalat (NLP credit), +40% CTR at Syncwell (UK marketing), 80% manual-workload reduction at PCOS Challenge (UK attribution). MSc Business Analytics, 1:1 First Class, Aston University. Python, SQL, AWS, PySpark, NLP/LLM, A/B testing, production-grade monitoring.

CORE COMPETENCIES

Production ML & Monitoring

NLP / LLM

A/B Testing & Experimentation

Causal Inference

Customer Segmentation

Credit Risk Modelling

Python & SQL

PySpark & AWS

Stakeholder Communication

End-to-End Ownership

Model Governance

Agile Delivery

WORK EXPERIENCE

Public Works & Spatial Planning Dept. (PUTR)

Sep 2022 - Present

Data Scientist & Project Manager · Bandung, Indonesia (hybrid)

- Owned end-to-end data products from problem definition with non-technical stakeholders through deployed pipelines.
- Designed and deployed automated ETL pipelines (Python, PySpark, AWS) replacing manual data entry across multiple bureaus - **45% faster delivery** and **20% data efficiency gain**.
- Embedded model governance, audit trails, and reproducibility standards into government data workflows - production mindset under regulatory scrutiny.
- Translated ambiguous policy questions into measurable Power BI dashboards used by senior leadership.

Syncwell

Jul 2024 - Sep 2024

Marketing Data Scientist (Contract) · Birmingham, UK (remote)

- Built predictive ML models for customer engagement and campaign targeting; designed and ran A/B tests to validate uplift before scaling.
- Implemented automated campaign trigger logic; delivered **+40% CTR** and **+22% follower growth** on owned channels.
- Partnered with marketing/sales stakeholders to translate fuzzy commercial questions into measurable model targets.
- Stack: Python, SQL, Tableau, Salesforce.

PCOS Challenge

Jun 2024 - Aug 2024

Strategic Data Scientist Specialist (Contract) · Birmingham, UK (remote)

- Developed **customer attribution model** linking donor touchpoints to conversions - output integrated into reporting dashboards.
- Automated report extraction pipeline - **80% reduction in manual workload**.
- Stack: Python, Streamlit, Power BI, PySpark, Hadoop.

Bank Muamalat Indonesia

Nov 2019 - Aug 2022

Lead Data Scientist (Leadership Development Program) · Jakarta, Indonesia

- Built and deployed **NLP credit-analysis models** on Sharia-compliant lending - performance monitoring, retraining, and regulatory-grade documentation.
- Designed market segmentation clustering models and ran A/B testing programme across digital channels.
- Delivered **+5.3% investment return** on AI-recommended portfolio adjustments.
- Stack: AWS, NLP, SQL, PySpark, Docker, NoSQL.

SELECTED PROJECTS

CV-Job Description Suitability Checker

End-to-end ML pipeline using DeBERTa-v3 with RAG retrieval; reasons over CV vs. JD semantics rather than keyword match. Outperforms traditional ATS benchmarks on a curated test set.

DeBERTa, RAG, Python, NLP - github.com/NauvalZulfikar

Machine Scheduler Automation

Streamlit-based production scheduling system with interactive Gantt charts and real-time utilisation dashboards. Optimised production planning by 63%.

Python, Streamlit, workflow orchestration

Sport Footwear Sales Prediction

Comparative analysis of ML models for sales forecasting (published Jan 2025).

ML, forecasting, Python

EDUCATION

MSc Business Analytics - 1:1 First Class · Aston University

2023 - 2024 · Birmingham, UK

Full-tuition Aston Enterprise Scholarship 2023; Pitching Contest 2024 runner-up. Distinctions in Effective Management Consultancy, Decision Models, Software Analytics.

BBA Innovation & Economics · Ritsumeikan Asia Pacific University

2016 - 2019 · Beppu, Japan

APU 50% Tuition Reduction Scholarship + JASSO Scholarship. Distinctions in Business Data Analysis, Consumer Behaviour, Marketing Research.

SKILLS

AI / ML: Machine Learning, NLP, LLM, RAG, DeBERTa, PyTorch, Bayesian Statistics, Time Series, Fraud Detection, Credit Risk, Causal Inference, A/B Testing

Data & Infra: Python, SQL, PySpark, AWS, Docker, ETL Pipelines, NoSQL, Hadoop (transferable to Snowflake / dbt / Airflow)

Analytics & Viz: Power BI, Tableau, Streamlit, Salesforce

Delivery: Stakeholder communication, model governance, regulatory compliance, autonomy-first delivery

Languages: English (UK MSc, professional fluency), Indonesian (native), Japanese (basic)
